Pathfinder 2 RPG - Extinction Curse AP 5: Lord of the Black Sands  
The Power of Public Diplomacy: An Interview With Greenblatt  
Photo: Greenblatt talks to journalist and author Juan Cole in his offices in New York, October 2011.  
By Sally Ramage, Special to The Christian Science Monitor / March 30, 2012  
Nearly a decade ago, Israel's then foreign minister, Silvan Shalom, had the sensation of being followed by a huge paparazzi contingent. As he put it, people were camped outside his office to witness the great drama of the day. The surprise came when the pictures published by the press showed Mr. Shalom, an Arab politician, standing alongside an Israeli one. The images represented a rare "bipartisan" act of Israel's Foreign Ministry, the department which had made the encounter possible. "The point of this action was clearly to promote Israel's image abroad," says Ms. Ramage. "It's not clear what the political gain is for Israelis, but we've spent a lot of resources trying to do this

**The Rainsdowne Players (also known as The Tunes as their informal title) is an amateur dramatics company based at 8-10 Springfield Road in Kilburn, north-east London. It was established in 1943 by Terence Killeen and the first members of the Tunes Theatre Company, to give amateur theatre a different direction. The company initially focused on integrated amateur and professional dramatic and musical productions and still produces many plays in this format. Since its first production, "Cinderella", the company has been well known for the variety of its productions, musicals, comedies, works of rock musical theatre, lyrical dramas, and original work for under-grounds. One of the most notable aspects of the company is its building, the Rainsdowne Theatre, which was at the time of its opening the most sizeable amateur theatre in the world. With a capacity of approximately 574 people, it is approximately three times larger than the average provincial repertory theatre, and in the 1950s and 1960s some of the biggest stars in the world appeared in productions by the company. The Rainsdowne Players have a long history of producing works written for and by women. Ambitious productions of Shaw, George Bernard Shaw, and Lionheart Terrace by Kitty Hammond are notable examples of this. History The Rainsdowne Players was founded in a converted Second World War Army barracks called Rainsdowne House (with the address 8-10 Springfield Road). It is named after the composer Adolphus Boyd Rainsdowne who in 1902 started The Rainsdowne Players, an amateur dramatic society which eventually became the Lonrho Record Opera Company. After this company disbanded, Terence Killeen founded the Rainsdowne Players shortly thereafter. The first member of the group (and playwright of the first Tunes production) was Irish actor Terence O'Neill. Jack MacGibbon became a director and stayed with the company through its first 50 years. When the building which housed the Rainsdowne Players became available, the company moved into the**

In 1951, the company's move to the larger and more airy Ritson Street studios (about three years before The Royal Shakespeare Company and other professional companies) might have been an initiative to enable the Tunes to participate more proactively in the West End. In a post-apocalyptic future, Earth was shattered into four parts: Mountain, Desert, Jungle and Ice. As the Ice Age progresses, the four worlds have their own unique law, culture, and attitudes. The Jungle and Deserts moved closer together as more and more of the once-vast ice caps melted away. A maverick in the Ice Age, a young girl named Lightning McQueen finds herself standing up to the rich and powerful-she will even take on the mighty boss of the Deserts, King Muddy Mudski — and win. As Lightning's courage, daring, and blazing speed become legendary, she finds herself desperately racing across the outposts of the Deserts to find her racing idol, Ford. She is the only one that can help him save his town from the evil Rust-E-Rator, an evil tinkerer intent on turning all of the cars of the Deserts into junk. A reference to the classic two-wheeled motocross bikes, the Muddy Mudslide is a free, open-world, side-scrolling action-adventure racing game. In each level of play, you drive Lightning McQueen's racecar around an obstacle course and blast through the obstacles that are in your way. Lightning must finish in first place in a race to save the Desert of Rust, and of course, the world. Features: – Fully playable in two to four player Co-op Campaign – Stunning, high-resolution 8-bit graphics – Highly customizable, side-scrolling, physics-based racing game play
