The legend of the Black Stone and the prosperity it brought to Kunark. Back then, few knew of the power of Alchemical secrets. Only the most cultivated and initiated mages had stumbled upon them or been gifted with them. Then something happened, and the hint of the secret was discovered for the first time in the so called 'Alchemist's Castle.' The stone. A black stone, 5 cm long and 3 cm wide. It's not a rock, but a complete piece of a strange monolith. With it, a person can craft potions of unimaginable powers. After the stone was found, much was learned about its mystic properties. Most mages managed to learn its secret, yet none could wield it. So, with time the stone became the pride of Kunark. The largest and most impenetrable castle of the world became the well guarded 'Alchemist's Castle.' When a mysterious plague appeared in the city, many people lost their lives, and the castle became a central point of attention, and a place where legends were born. Around it the 'Hall of Heroes,' where the most renowned fighters of Kunark got together for training in Alchemical techniques. For the year of 1114, the fallen Empire of Garrosh lies in ruin, its people starving, its borders overrun. The Scepter of the Hand is almost in the hands of the Horde. Three factions—the Vox, the Highborne, and the Trementine—are fighting a civil war to take it for themselves. Your actions will shape the outcome of this conflict, in a world where multiple factions vie for control of the royal capital of Kirath on a war-torn continent of Vardar. Your cause can be any one of the three factions, or none—all that matters is that you join one of the three and earn your own legend in the process. For the year of 1114, the all-or-nothing choice could only be yours. Key Features: • Character progression and customization: Start the game on your own terms, utilizing a character’s Skill Points and Resource Points as you see fit to your own unique play-style. Customize your character with a wide variety of clothing, weapons, armor, and more. Your character’s appearance and skills will change through the course of the game as you earn experience by fighting your enemies and completing quests. • Skills: Each character’s job is to use a specific set of Skills in combat. For example, your Tactician can use his Communication skills to convince enemies to surrender or even lure the enemy into a trap, while your Vanguard can use his Magic skills to call upon ancient mystical power. • A dynamic post-apocalyptic world: The year is 1114 AD, and the world has fallen to chaos. The City of Kirath—the capital of the Empire of Garrosh—is the last stronghold of freedom on a war-torn continent. Three factions—the Trementine, Vox, and Highborne—are vying for the control of the city. Players will take on quests that help influence the current events, or go it alone to forge a path in the world. • New dungeons for each faction: Each of the three factions have their own story to tell, with their own unique dungeons to conquer. The Trementine, for example, can explore the secrets of their ancestor’s tomb, the Highborne can destroy the remaining Garrosh armies in their quest to end the civil war, while the Vox will encounter their long-lost guardians and try to unravel their secrets. • Dungeon and World War Boss Bonuses
