## Personal comments

Our aspiration as a game developer is to make complex games that children love. Grass Cutter is a pretty simple game that children will love. Monika and Didier started developing grass cutter for their nephews (2 and 4 years old), and they started loving the game. We hope you will like it too!

## Download this Game

The game is available in Google Play and iTunes. In Google Play, you can also easily find Grass cutter by category (Apps for Kids for instance).

\* The game turns the clock back to take you on a stock-splitting journey to the end of the 20th century \* The player with the most stock at the end of the game is the winner \* Stockpile centers on the idea that nobody knows everything about the stock market, but everyone does know something, and it is up to you to decide what to do with that information Design: \* Tilt the board to the right to display the potential market impact of your actions on the current round \* Players take turns placing their stockpile pieces on the board \* After everyone has taken their turn, the market is updated based on your actions \* If you have the most stock after the next round, you win \* Stockpile includes 4 bonus expansion modules that can be purchased separately \* Each expansion module adds an additional player game scenario to the original game \* You can play any combination of the 4 expansion modules to create your own personal game \* Play for \$10 off the MSRP on the new game by using our promo code: BLAST\* CASUAL PLAY: Casual: Stockpile By:0.75.b> Cultures Die is a game about collecting coins and creating the greatest civilization. Players are challenged to raise their civilizations from 0 to 100 in as few turns as possible. The game combines exciting components such as a resource wheel and coin-collecting dice, and a game board that changes from round to round based on the number of coins collected. Strategy Game At A Glance:Stockpile: Five Years

Later-----The second expansion for Stockpile contains five expansion modules that can be played separately or used all together for more strategic game play.Module 1: Mint That Changes The Market. As most of you know, you no longer need money to bid on stocks. Now, however, you do need to pay taxes on your stockpile.Module 2: Start Something You Won't Have To Finish. The ability to make an entire stockpile of cash, or even a large part of one, is not always the answer to winning your game. Module 2 provides the tools to start a company and use the income from that company to bid on stocks. Module 3: When The Time Comes. When you start a company, you must pay dividends, and when you pay dividends, you must declare a tax.

## What's new:

is a large room with a number of "toys" on it's shelves, some easy to get, some needing different ways to open than a lift, some just not possible so there are no clues to get it. **THE BRIDGE:** This bridge is built over water, and has secret elevators to other levels of this room. **THE BLINDS:** The rooms where the "toys" are kept, some have long dark corridors, and others, special dials. Either way, you get a prize. **THE DOOR:** A red metal overhang door, which open to a secret room, that has a lot of helpful ID's inside. However, two traps can set off a noisy and causing others. **THE KEY:** Before the end of a playthrough, this Key shall be found. **FLASH SECRET:** At the end of a playthrough, there is a special panel appearing in the Toymaker's Mansion, that can shoot out special flares, and yes, other people can find them on themselves and others. **THE SECRET OF THE TOWER:** At the end of a playthrough, a secret panel shall appear on the wall of the Toymaker's Mansion. **THE WASHROOM:** A room hidden inside a secret room. Inside are a couple toilets and secret doors, if you go in through the secret door, you can sneak through the washroom, through the toilet and get a prize. However, traps in here. **THE PORTAL TRAP:** On the third level of the Toymaker's Mansion, you may find a trap which will open a door that has **NO WALLS.**

**Q: jQuery: total 'Edit' clicks** I have a modal which is opening only when you click on Edit. What I want to happen is something like this: Once you click the Edit button you can change all the fields, but after that you can't change any other fields. This is what I have so far: `$('#id[id-date], #id[id-name], #id[id-price], #id[id-color]').hide(); $('#id[id-date], #id[id-`

Designed by Alan Wake, and based on his novel of the same name, 'The Signal', independently published in 2001, Alan Wake is the first game featuring the iconic performance capture of writer/director, Remedy Entertainment. Set in the fictional town of Bright Falls, Alaska, Alan Wake is a seemingly sleepy town that is anything but. As Michael Knight, the titular lead, the player is investigating a series of incidents and murders that seem strangely linked. Shortly after his disappearance, a mysterious orange haze starts spreading across the town, heralding an apocalyptic invasion on the small town that is home to its citizens. In this town, a game is afoot. Using an increasingly unstable reality to his advantage, it's a matter of time before the events of this game will catch up to a fairly ordinary man. -- Environments -- The game's settings, Bright Falls and the Manor, are respectively a sprawling cityscape and the multiple incarnations of Alan's home. -- Characters -- Seventeen years of videos Visit our Top Videos section for an overview of the vast amount of footage we've published so far!
